### HOW TO

Give each student 1 worksheet and 1 A4 size card.

Using the worksheet, explain to students how to write a Christmas card. Begin with deciding who they will give the card to.

For each step, students should choose 1 example or write their own.

Here are 2 examples of a personal message:

“Thank you for being the best sister in the world!”

“Let’s be friends forever!”

Students use the worksheet to plan their card. When planning is finished, begin making the finished piece using the A4 card.

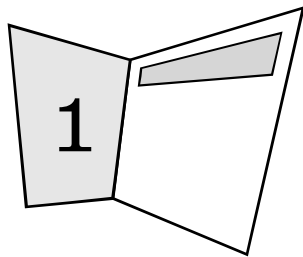

Students decorate their cards.
